BUILDING ON

SHAREPOINT CAPABILITIES

Overview

Today's concept of a workplace isn't confined to a physical place. It has undergone an expansion, embracing the idea of a global workplace, with teams remotely working towards a common organizational goal. Logically, enterprises are searching for content and collaboration solutions that make internal sharing simple and collaborations seamless to drive organizational efficiency, harness collective knowledge, and transform their business processes. SharePoint, with its robust capabilities, has emerged as the most popular enterprise-grade collaboration platform.

What We Do

As a Microsoft Gold Partner and a certified Cloud Solution Provider, AgreeYa has been helping enterprises digitally transform their workplace by delivering end-to-end SharePoint services and solutions, both on-premises and cloud. We offer a full portfolio of services across the SharePoint deployment lifecycle. From assessment, implementation/modernization, integration and application management services, we have extensive experience to support every aspect of your SharePoint journey.

Our solution delivery accelerators yield productivity gains and produce consistent, accurate and predictable SharePoint performance even in the most challenging environment.

Proven Expertise:

Our 20+ years of experience and product expertise allow us to bring best practices to the table, to bring you world-class, robust, and next-generation solutions on time.

Success Stories

SharePoint Migration for Pioneers in Almond Industry

The pressure to drive innovation that results in cost reduction was the major challenge for the client. As part of AgreeYa offered solutions, SharePoint 2010 environment was migrated to Office365, to implement a flexible environment in terms of changing business requirements, standards and legal requirements, communication patterns, and work processes & reporting. It allows maintenance cost-cutting, easier and faster implementation of new requirements.

Nintex Workflows & Forms implemented for an Agricultural Cooperative

Challenge was to enhance employee experience, performance, and satisfaction across the organ. AgreeYa implemented numerous Nintex forms & workflows, as well as

integrated DocuSign for eSignature solution, which helped in better collaboration, enhanced portal speed, and leveraged new features.

New Employee Intranet Implemented for a District

A district in the U.S. was seeking a technology partner to move from a self-managed environment to a comprehensive platform based on SharePoint Online for better collaboration. Drawing a refined strategic blueprint, AgreeYa made a significant SharePoint Online implementation. Our implemented Microsoft platform (SharePoint) helped the district in better collaboration, easy data findability and hence enhanced employee experience, performance, and satisfaction across the organization.
