

SharePoint Migration and Upgrade

SharePoint is no doubt one of the most popular business platforms that has ever been developed by Microsoft. Often referred to as the “Swiss army knife,” it’s used by enterprises of all sizes in different ways and forms to achieve the same goal of having a platform that offers a competitive advantage. AgreeYa’s SharePoint practice is tailored to help businesses transform their SharePoint environment into a platform that delivers on that competitive advantage, hassle-free.

Evolve, Transfer and Deliver

AgreeYa specialize in expansive and complex SharePoint deployments. We are expert in both Microsoft technologies and the many modern and legacy applications that must integrate with SharePoint. AgreeYa’s proven methodology support all stages of your migration projects – providing you with assessment, planning, and reporting capabilities – to efficiently migrate from your legacy collaboration system to the latest versions of SharePoint or Office 365 – SharePoint Online and OneDrive for Business- Hassel Free.

Why Move?

With the release of SharePoint 2016, many are considering upgrading or even migrating to this new version of SharePoint. SharePoint 2016 offers some great new features and benefits including:

- Hybrid deployment
- MinRoles to define each server’s role in a farm topology
- Service applications that serve back-end requests
- Open Document Format (ODF)
- Enhanced security
- New compliance center to facilitate content retention and deletion
- Device agnostic via full compliance with HTML5 standards
- Zero downtime patching
- Rapid site creation using site collections
- Uploads of up to 10 gigabytes (GB)
- New app launcher that adds shortcuts/content to the top navigation bar
- Claims-based authentication
- Encrypted SMTP connections using non-standard ports

Move to the Next Level, Hassel-Free

If you are looking to move from an earlier version of SharePoint or from a legacy platform but are concerned about the many issues that accompany it—from cost to data security, customization and branding—AgreeYa can help.

AgreeYa’s proven SharePoint methodology and support services enable its customers to move to their desired SharePoint Version hassle-free, be it on premise, hybrid or cloud. AgreeYa’s unique four-step approach to SharePoint migration and upgrade ensures a smooth and seamless transition. AgreeYa’s four-step approach includes:

- **Plan-** Analysis of your existing SharePoint environment, understanding of business needs and defining a success criteria.
- **Prepare-** Identify destination components, create pilot environment, configure migration tools, run pilot test and conduct pre-migration analysis.
- **Migrate-** Create destination components, implement migration plan, conduct migration runs, validate content, perform UAT and conduct user training.
- **Post-Migration-** Provide managed services and support to accelerate adoption, improve governance and drive business ROI.
