## EVOLUTION OF SHAREPOINT

## Benefits of SharePoint 2013

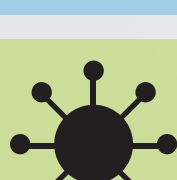

**Centralized Administration:** Managers can effectively maintain control of the entire platform.

**Customization:** Through an option to build custom applications, teams are provided with the tools they need to get their jobs done right.

**Increased Collaboration:** Colleagues are able to connect in new and creative ways.

**Consolidated Sites:** SharePoint consolidates intranet, extranet and internet sites while reducing the overall costs associated with each.

**Security and Integrity:** SharePoint protects the integrity of data from unauthorized use at both document and item-levels.

**Employee Empowerment:** Because of SharePoint's ease of use, employees can build the business tools and solutions they need without the assistance of a developer.
